Argos Risk

Leverage Real-Time, Integrated Data and Third-Party Risk Intelligence with Actionable Insights

What steps are you taking to assess and monitor the potential financial and business risk of your third-party vendor ecosystem? As disruptions increase, preparation is key – don't get caught off-guard. Fusion has advanced its third-party risk management (TPRM) capabilities by partnering with Argos Risk – integrating critical vendor data and risk intelligence, empowering clients with a robust data foundation, ongoing risk monitoring in a comprehensive dashboard.

The insights provided by our new third-party risk dashboards heighten business intelligence for your risk program, building resilience into your supply chain with increased visibility to proactively inform decisions to take necessary action.

Vendor 1	Low Risk	78	🟢
Vendor 2	Low Risk	81	🟢
Vendor 3	Low Risk	94	🟢
Vendor 4	High Risk	22	🔴
Vendor 5	Moderate Risk	33	🟡
Vendor 6	Moderate Risk	72	🟡
Vendor 7	Moderate Risk	44	🟡

Benefits

24/7 Third-Party Monitoring for Fast, Efficient Risk Mitigation

Live, interactive, ongoing monitoring of your third-party data within Fusion, filter and surface insights in real-time, and assess necessary actions.

Create a Holistic View of Your Critical Vendors

Streamline your vendor life cycle and contextualize your data with a comprehensive view of vendor viability insights, unearthing vulnerabilities in seconds.

Automated Alerts to Execute Necessary Action More Quickly and Easily

Leverage actionable TPM alerts, automatically generated when vulnerabilities increase (i.e. a vendor's risk profile changes or a risk event occurs).
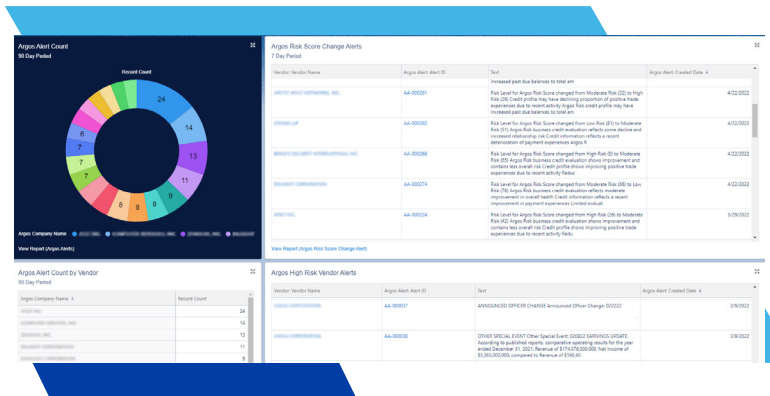

Automated Insights Providing Simplified Views of Your Most Critical Vendors

Leverage automated risk rating for more insight behind each vendor record detailing why they are high risk and how you need to respond to avoid interruption of critical services.

Receive Automated Alerts on High-Risk Vendors for Fast, Proactive Decision Making

- Leverage alerts to focus on what's critical to prioritize efforts
- Access third-party risk intelligence to build a data-driven perspective on operational resilience

Navigate Your TPRM Data and Mitigate Risk with Ease

- Leverage real-time data to continuously monitor vendor ecosystem
- Analyze trends
- Mitigate issues before they occur in one platform

Increase Your Understanding of High-Risk Vendor Impact with Simplified, Interactive Dashboards

- Visualize dependencies
- Understand the criticality of high-risk vendors on your important business services and products
